DxDesigner & **Expedition PCB Introduction**

TRAINING MANUAL

Contents

<i>Printed Circuit Board (PCB) Basics</i>	5
Layers and their Stackup.....	5
Holes in PCBs.....	6
Packages and Component Footprints.....	8
Forbidden Packages for Tutorial Demo.....	11
Solder Masks.....	12
Silkscreens.....	13
ZIP FILES, PROJECT EXAMPLE FILE, LIBRARY AND SETUP FILES LOCATION.....	13
Class_docs:.....	13
DxDesigner_Tutorial:.....	14
ExpeditionPCB_Tutorial:.....	14
DxDesigner:.....	14
Importing a project from another Machine:.....	39
Copying Parts:.....	43
Easy Bus Creation.....	47
DxDesigner to Expedition PCB: Part 1: Forward Annotation :.....	66
Symbol Creation Tutorial:.....	78
Introduction to Library Manager Interface:.....	87
Glossary of Terms.....	90

Central Library:	90
Components:	90
Partition:	91
Local Library:	91
Parts:	92
Cells:	92
Symbols:	93
Padstacks:	93
Models:	93
Gerber format:	93
Cell Creation:	94
How to Create/Modify/Rename/Populate Partitions:	118
Using 'makepart'	123
Header section:	124
Global nets section [optional]	124
No-connect section [optional]	125
The SIGNALS section:	125
An example mkpart file	126
Running the makepart program	129
Importing your newly-created symbol	130
Importing a makepart-generated part description	131
Library Manager Find Function:	131
Part Creation Tutorial:	140
Import Files to Central Library:	158
A Introduction -LIBRARY OVERVIEW	164
B CREATING PADSTACKS	170
C CREATING CELLS	182
D CREATING PARTS	201
E CREATING A LAYOUT TEMPLATE	218
F PCB EDITOR OVERVIEW	224
SINGLE SELECT	237

TRIPLE SELECT	237
G STARTING A PCB LAYOUT	242
H SETTING UP THE LAYOUT	249
PLANE CLEARANCES	251
USING THE ROUTE BORDER WITH SPLIT PLANES	252
I DEFINING BOARD GEOMETRY	262
INSERTING AN ENDPPOINT HANDLE	268
CHANGING PADSTACKS	274
MOVING THE MOUNTING HOLE	274
LOCKING THE MOUNTING HOLE	274
J PLACING PARTS	279
PART NUMBER	283
K VERIFYING THE LAYOUT	291
L ROUTING TRACES	294
ITEMS TO ROUTE	311
EFFORT LEVELS	311
LAYERS	312
ROUTE / VIA GRIDS	312
FIX	312
M GENERATING PLANES	316
THERMAL DEFINITION	323
USE ROUTE BORDER	324
DEFAULT CLEARANCES	324
DISCARD PLANE AREA	324
N FINALIZING THE SILKSCREEN	328
O GENERATING GERBER DATA	339
P GENERATING DRILL DATA	347
Q FINAL EXAM	354
